Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner informed Counsel that, the claims submitted on 06-18-04 do not appear to be consistent with the originally recited claims. Also informed counsel that, the apparatus claims do not require the recited material worked upon as being part of the apparatus as noted in a prior interview. Counsel agreed to make the necessary changes suggested by Examiner (see Examiner's amendment for details) to place the application in condition for allowance. On 07-27-04, participants agreed to remove a statement on page 1 lines 2-25 of the specification: "This application is ... now U.S. Patent No. 4,872,784."; and replace the statement with --This application is a 371 of PCT/US00/25535 09/18/2000-- in order to make it consistent with a BIB data sheet.
